Injection Mold

This is SKB's latest venture in our quest to provide the most innovative hard shell case products. Injection molding is an expensive investment that leaves no room for error. Made with extreme pressure, even the smallest injection molded part requires a very large and heavy mold (some of SKB's molds are nearly 20 tons!). The injection mold process produces many of our parts—such as our patented Trigger Latches—and our gasket-sealed waterproof iSeries cases are proving to be popular transport solutions for everyone from touring musicians to military personnel. Never before has an ATA flight case been so advanced and lightweight.

Roto-Mold

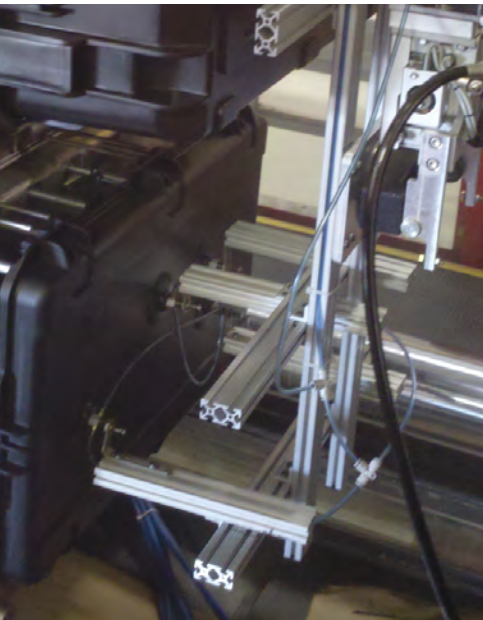

In 1997, SKB invested in roto-mold machinery. These molds are ideal for making large and cylindrical cases. The PE roto-mold material starts as a fine powder that is measured according to the size of the case. The material is then sealed up in a multi-piece aluminum mold, fixed on a biaxial rotating wheel, and heated to 800° in a very large oven while the mold constantly rotates. The powder melts and coats the inside of the mold and, after cooling, the cast is disassembled and the new case is removed. Roto-molding is great for providing maximum transport protection and impact resistance.

Vacuum Form

Also known as thermal form, this was the first and most recognized "SKB Style" case. This method is very popular for everything from guitar and band instrument cases to golf cases, rifle cases, and more. In 1990, SKB developed the first vacuum formed rack case. Acrylonitrile Butadiene Styrene (ABS) or Polyethylene (PE) is formed into solid sheets of material. The sheets are then heated and vacuum formed around aluminum castings, thus taking the shape of the mold. The edges have a distinctive aluminum valance that provides rigid construction as well as a secure fit. Vacuum formed products are known for their light weight and extreme durability.

Our Story

In 1977, two ambitious college students developed the first SKB case in a small Anaheim, California garage. What would eventually become the industry's premier lightweight molded guitar case was just the first of many innovations that have since cemented SKB's global reputation as a leading manufacturer of superior equipment transportation solutions. These solutions are helping diverse industries around the world—from music and photography to sports, aerospace, military, industrial, and beyond—to protect their livelihoods, build better products, and get the job done.

If our over 45 years of steady growth have taught us anything, it's that we have our customers to thank for giving us the opportunity to excel; it's their challenges that have allowed us to develop and grow. We at SKB are grateful for the continued trust and loyalty of our customers, and we remain dedicated to the assurance that every case with an SKB logo has been manufactured with an unconditional commitment to unsurpassed quality.

Drum Set Packages

1SKB-UDP1 SKB Ultimate Drum Package

A set featuring the most popular sizes all in one kit, including: 8 x 10 Tom, 9 x 12 Tom, 6.5 x 14 Snare, 14 x 16 Floor Tom, and 18 x 22 Bass

Roto-Molded Drum & Percussion Cases

Roto-molded of Linear Low Density Polyethylene (LLDPE), SKB drum cases provide maximum protection in transport. The patented Roto-X pattern provides added strength and reliable stacking. Fully lined interiors protect hardware and shells from damage. All metal, sure grip handles with a 90° stop are designed for easy lifting.

Cymbal Cases

i series

3i-2424-CF22 iSeries Cymbal Flyer

This waterproof flight case includes a custom platinum plush EPS interior with welded center posts to securely hold up to eight cymbals. The lid organizer provides storage for drum heads and other accessories, and includes a smaller pocket that is perfect for drum keys.

Fits 8 cymbals up to 22".

Includes:

- 4 cymbal pads
- 2 TSA-accessible locking latches
- Pull handle and wheels for easy transport

Exterior 26.56" x 26.5" x 11.65"
67.46 x 67.31 x 29.59 cm

Weight 27.81 lbs 12.61 kg

1SKB-CS22 Roto-Molded Cymbal Safe

Designed for transport of either cymbals in a gig bag or marching band cymbals that cannot be mounted on a spindle. The Cymbal Safe also includes a padded interior for added protection.

- Heavy duty, roto-molded construction
- Carpeted walls, padded top/bottom
- Heavy duty web straps

Interior 24.5" x 8.75"
62.23 x 22.23 cm

Weight 12.49 lbs 5.66 kg

Cymbal Vaults

- Heavy duty, roto-molded construction
- Welded center post to secure cymbals
- Four padded dividers for cymbal protection
- Pull out handle and wheels (not on 1SKB-CV8)
- Heavy duty web straps
- Lifetime Warranty

1SKB-CV22W 22" Rolling Cymbal Vault

Fits 8 cymbals up to 22"

Weight 14.08 lbs 6.39 kg

1SKB-CV24W 24" Rolling Cymbal Vault

Fits 8 cymbals up to 24"

Weight 15.66 lbs 7.1 kg

1SKB-CV8 Roto-X Cymbal Vault

Fits 8 cymbals up to 22"

Weight 9.33 lbs 4.23 kg

Drum Hardware Cases
